PRASHANT PANDEY

Senior Project Engineer | ReactJS • SQL • Data Operations

I am Prashant Pandey, a Senior Project Engineer with over 4 years of experience in ReactJS and SQL. My expertise includes data operations, database management, and developing interactive web applications. I have hands-on experience in solving complex technical problems and contributing to end-to-end development and data-driven projects. I am committed to continuous learning and adapting to new technologies, making me a versatile and valuable asset to any tech-driven organization.

WORK EXPERIENCE

Sr. Project Engineer

09/2021 – Present
Noida, UP (Hybrid)

Wipro Limited

Tech Stack: React, SQL

- Working as a Senior Project Engineer, contributing to application development and data analytics initiatives. Responsible for optimizing SQL queries, handling large-scale data operations, and developing interactive web applications using ReactJS.
- Collaborated with cross-functional teams to support end-to-end development, database management, and technical problem-solving, while maintaining high standards of performance and data integrity.
- Continuously learning and implementing new technologies to improve development efficiency and analytical capabilities.

PROJECTS

Data Migration Platform

- Developed frontend components for a data migration platform used to transfer data from multiple databases to Google BigQuery.
- Built responsive UI using React.js to allow users to configure and monitor migration jobs.
- Integrated frontend with backend services using REST APIs to fetch migration status and job details.
- Implemented reusable components to display database sources, migration progress, and logs.
- Improved user experience by creating dynamic forms for selecting source databases and migration parameters.
- Collaborated with backend and data engineering teams to ensure smooth data pipeline monitoring.

Role: Frontend Developer | Tech Stack: React.js, JavaScript, HTML, CSS, REST APIs

InfluencerAI Platform

- Developed frontend components for an AI-based influencer platform that generates and publishes content automatically on Instagram.
- Integrated AI services to generate character images and convert them into videos using image-to-video generation tools.
- Designed dynamic UI components to handle content creation, preview, and automated posting workflows.
- Connected frontend with backend services using REST APIs to fetch generated media, manage workflows, and trigger publishing.
- Implemented reusable components to display AI characters, generated videos, and publishing status.
- Collaborated with backend and AI integration teams to ensure smooth content generation and delivery pipeline.

Role: Frontend Developer | Tech Stack: React.js, JavaScript, HTML, CSS, REST APIs, Generative AI

TECHNICAL SKILLS

Languages
JavaScript (ES6+), SQL

Web Frameworks
ReactJS (Hooks, Components, Routing, Redux)

Tools
Visual Studio Code, Cursor

Gen AI
Prompt Engineering, ChatGPT

Frontend
HTML5, CSS3, Bootstrap, Material-UI

EDUCATION

M.Tech
Birla Institute of Technology And Science, Pilani (BITS Pilani)
2021 – 2025 • Online Learning

Bachelor of Computer Application
GLA University, Mathura
2018 – 2021

Intermediate
Adarsh Inter College, Mathura
2018

High School
Adarsh Inter College, Mathura
2016

LANGUAGES

English	Full Professional Proficiency
Hindi	Full Professional Proficiency
