PRASHANT PANDEY

Project Engineer | Data Migration • ReactJS • SQL • Power BI

I am Prashant Pandey, a Senior Project Engineer with over 4 years of experience in ReactJS, SQL/PLSQL, and Power BI. My expertise includes data operations, database management, and developing interactive web applications, along with creating impactful data visualizations and analytical reports. I have hands-on experience in solving complex technical problems and contributing to end-to-end development and data-driven projects. I am committed to continuous learning and adapting to new technologies, making me a versatile and valuable asset to any tech-driven organization.

WORK EXPERIENCE

Sr. Project Engineer

09/2021 – Present
Noida, UP (Hybrid)

Wipro Limited

Tech Stack: React, SQL/PLSQL, Power BI

- Working as a Senior Project Engineer, contributing to application development and data analytics initiatives. Responsible for optimizing SQL/PLSQL queries, handling large-scale data operations, and developing interactive web applications using ReactJS.
- Developed Power BI dashboards and reports to provide actionable insights for business stakeholders and support data-driven decision-making.
- Collaborated with cross-functional teams to support end-to-end development, database management, and technical problem-solving, while maintaining high standards of performance and data integrity.
- Continuously learning and implementing new technologies to improve development efficiency and analytical capabilities.

PROJECTS

Web Application Development

- Developed dynamic and responsive UI components using ReactJS and modern practices like React Hooks.
- Integrated REST APIs using fetch and Axios, handling JSON responses and state updates.
- Implemented React Router for multi-page navigation and protected routes.
- Improved application performance through lazy loading and memoization to minimize re-renders.
- Utilized HTML5, CSS3, Bootstrap, and Material-UI to design clean and intuitive UI layouts.

Tech Stack: ReactJS, JavaScript, Material-UI

Power BI Reporting & Analytics Dashboard

- Developed interactive dashboard to analyze operational and project performance metrics with DAX-based KPIs.
- Integrated multiple data sources, automated refresh; reduced manual reporting with real-time tracking.

Tech Stack: Power BI Service & Desktop, SQL, SharePoint

Data Migration

- Performed large-scale data migration from Greenplum and Hive into Google BigQuery using SQL-based ETL processes.
- Wrote and optimized SQL queries; resolved migration errors and schema mismatches using advanced SQL debugging.
- Executed data validation and reconciliation via record-level comparisons and checksum methods.

Technologies: SQL, GCP, BigQuery

TECHNICAL SKILLS

Languages
JavaScript (ES6+), SQL, PL/SQL

Web Frameworks
ReactJS (Hooks, Components, Routing)

Data & Analytics
BigQuery, Greenplum, Hive

Tools
Power BI (DAX, Service, Desktop), Visual Studio Code, Cursor

Frontend
HTML5, CSS3, Bootstrap, Material-UI

EDUCATION

M.Tech
Birla Institute of Technology And Science, Pilani (BITS Pilani)
2021 – 2025 • Online Learning

Bachelor of Computer Application
GLA University, Mathura
2018 – 2021

Intermediate
Adarsh Inter College, Mathura
2018

High School
Adarsh Inter College, Mathura
2016

LANGUAGES

English	Full Professional Proficiency
Hindi	Full Professional Proficiency
